

Parents, Child Care Providers, and all those interested  
in child care and early learning

You're invited to a public forum to gather  
your ideas and suggestions on  
Washington State's Child Care Plan  
for the next two years

*(This plan describes how the state spend the federal Child Care Development Funds)*

You will have an opportunity to let the Division of Child Care and Early Learning know:

- What services are benefiting children, parents and providers
- What additional services are needed
- What services you would suggest reducing or ending

Your ideas and suggestions, those from other forum participants, and input from state level child care organizations will provide important information to help the Division set priorities in the plan.

Please join us at one of the following locations and share  
this flyer with others in your community
